

# Birchanger Houses

Development information

**ccha** are proud to introduce Birchanger Houses, a housing development which offers three modern homes for London Affordable Rent. The three bed properties were developed on **ccha** owned land. With a clever use of an existing, under utilised car park, **ccha** worked closely with BPTW Architects who designed a modern, space efficient collection of houses.

# Birchanger Houses

Completed in December 2019, the development took 19 months to build. The development cost £880,249, which included a grant of £180,000 awarded from the GLA.

Located in South Norwood, The Birchanger Houses sit within a tranquil setting overlooking a vast green area, providing stunning views. With transport links in to central London through the Selhurst Train station, the development is well positioned for those travelling in and out of the Borough of Croydon.
